Youssef Hussein

AI ADS CREATOR · GRAPHIC DESIGNER

About me

AI Ads Creator & Graphic Designer · 3+ years in visual work

An AI ads creator with a graphic design background. I produce AI-powered video ads, UGC-style ads and product photography for brands and advertising agencies, handling the full process from concept and storyboard to the final edit with music and sound. Three years of designing social media content, brand identities and logos give my AI work a strong sense of composition, color and brand consistency. I deliver on time, keep every product accurate to the real thing, and keep learning as the tools evolve.
